WOMEN'S COLLECTION

NEW

IDEAL FOR LAYERING COTTON BLEND

Conte Thermo Comfort - thin thermal underwear which perfectly draws off the moisture while physical activity and also helps to save the heat in the cold season. Breathable elastic fabric gives the freedom of movement and keeps your skin soft because of the fast drawing of the moisture out of the body. In the fabric there is ACRILIC- a new high-tech wool replacer which helps to keep a comfortable temperature of the body in cold weather.

Conte Thermo Comfort underwear – comfort and functionality in all the situations.

DOUBLE LAYERED

CLIMAT CONTROL

Conveniently On the move

Thermo Regulating

Elastic

Breathable

Protection in The cold

Moisture removal

Using of SabaSoft and SabaFlex threads which are developed specially for elastic seams which should be soft and shouldn't irritate the skin.
